## Note:

I use the removable marker to remind myself which side is the right side and to help me stay motivated to knit. Every time I pick up my wrap, I move the marker to right under my needle, on the right side, then I can tell how much progress I've made and it keeps me from messing up the pattern!

## "NOHO Wrap"

Repeat these two rows until yarn is gone or until desired length. Soak and block aggressively to pull out the "lace" pattern.
